FreemanWhite
TME, Inc.
O’Donnell & Naccarato

The Providence Hospital Emergency Department Expansion & Renovation Project consists of approximately 23,000 SF of renovation work with a small exterior addition and structural modification to the existing Emergency Department. The work will be performed in two major phases to allow occupancy throughout construction. Minor phases will include maintenance of public cross corridor access throughout construction. Most work will be performed during normal working hours, but work in public spaces must be performed off hours. The new space will consist of exam rooms, nurses’ stations, a new X-ray room, a waiting area, and staff support space.

Schedule:

Bid Date = March 5, 2013 at 10:00am

Construction Start Date = March 2013, Construction Completion Date = June 2014

Bid Documents: Electronic Copy (FTP SITE): <https://whiting-turner.box.com/s/qgsiugfgmiq3at7212sr>

Hard Copy for Purchase: Arc Document Solutions
