### GROW YOUR BUSINESS WITH OFFSHORE WIND

1

Offshore Wind  
Overview

2

Offshore Wind  
Siting & Permitting

3

Manufacturing

4

Construction  
& Installation

5

Operations  
& Maintenance

6

How to Get  
Involved

## FOUNDATION 2 BLADE

*Foundation 2 Blade* (F2B) is an extensive training program with a singular purpose: to help companies identify where they fit into the growing offshore wind (OSW) supply chain and granting more opportunities to capitalize on new prospective leads.

F2B's training course features six modules that are broken down to demystify the supply chain, spur innovation, and present a market entry path for a company.

The six modules of F2B are: *Offshore Wind Overview*, *Offshore Wind Siting & Permitting*, *Manufacturing*, *Construction & Installation*, *Operations & Maintenance*, and *How to Get Involved*.

Graduates of the 18-hour course will understand the phases of OSW project development, understand component parts and the operations of OSW projects, determine where their company best fits into the supply chain and/or how to diversify, and more.
