

Johns Hopkins University | Milton S. Eisenhower Library Modernization – Minority Outreach

Project Details

A renovation has been planned for the Milton S. Eisenhower Library at Johns Hopkins University. Major components of the renovation will include the following:

1. The site will undergo regrading to establish a new ADA compliant entrance to the building. Work will also include new site utilities and exterior wall and paver replacement.
2. The majority of interior finishes and demising walls will be removed as part of the renovation. Designated finishes will be salvaged. New interior finishes will be provided as part of the modernization.
3. The existing structure will remain, including shafts and stairs. New mezzanines will be added inside the existing structure. The slab on grade and below slab trenches will be replaced.
4. Exterior windows will be restored and new walkable skylights will be installed on the existing plaza. Select facade restoration will be completed.
5. The existing roofing system will be fully replaced.
6. Elevator, Mechanical, Electrical, Plumbing, and Fire protection will be fully replaced.

When:
Wednesday, July 10th | 10am – 12:00pm

Where:
Johns Hopkins Facilities and Real Estate (JHFRE)
South Building (Entrance)
3910 Keswick Road Suite N3100
Baltimore, MD 21211
