

Allan A. Myers, LP, a division of American Infrastructure, is holding an informational event for interested MBE/DBE subcontractors and suppliers wishing to participate in the construction of multiple water resource projects in Delaware and Maryland. These projects include Water and Waste-Water Treatment Plants, Pump Stations, Water Conveyance, Large Sanitary Mains & Interceptors, Reservoirs and Dams, and includes the City of Wilmington Pumping Station Upgrades, Bidding on June 13,2012 .

Interested firms are requested to attend this event to be held at Ed Oliver Golf Club on Monday June 4th between the hours of 2:00pm and 6:00pm. A representative from the City of Wilmington DBE Administrative office will be present for those firms also wishing to be a registered MBE provider for the City of Wilmington and/or to better understand the City program.

Firms interested in the currently bidding Pumping Station Upgrades for the City of Wilmington can access bid documents at <https://americaninfrastructure.box.com/s/221a7d3074af04a299b7> and are also encouraged to attend. Please contact Tom Jacoby at Tom.Jacoby@aamyers.com with questions.
