

CLARK/US - BACK RIVER, LLC invites you to attend an **MDOT DBE Subcontractor/Supplier Outreach** for:

Improvements to the Headworks and Wet Weather Flow Equalization at the Back River WWTP - Early Start Packages

The event will be held on **October 4th, 2016** from **3:00pm to 5:00 PM** in the auditorium of the **Back River WWTP, 8201 Eastern Avenue, Baltimore, MD**

MDOT Certified DBEs are invited to attend

Project Description:

Improvements to the Headworks and Wet Weather Flow Equalization at the Back River WWTP (Project or Sanitary Contract No. 918H) are intended to address stormwater run-off where large quantities of precipitation during storm events can inundate the wastewater system, causing backups and overflows. The project will pump sewage from chronically backed up mains into the treatment plant and help prevent sewage overflows in the City.

Early Start Bid Package:

In order to facilitate meeting the overall program schedule milestones, the Owner has decided to issue both Early Start and Main Work bid packages. The principle item of work for this **Early Start** bid package is the construction of a new **Influent Pump Station**, with supporting tradework including, but not limited to:

- General Conditions items;
- Construction Stakeout and Surveying,;
- Temporary Fencing;
- Earthwork, including clearing and grubbing;
- Sheeting/Shoring;
- Dewatering;
- Cast-in-place Concrete, including formwork and steel reinforcement;
- Misc. Metal Fabrications;
- Plastic (T-Lock-type) Sheet Liner;
- other trades as may be needed

A brief presentation regarding project details will begin promptly at 3:00 PM.

Early Start Package Documents:

Some documents will be available for review at the Outreach Event.

Full documents will be made available via our ftp site known as "Box" as of October 10, 2016.

Early Start Package Bid Date:

Bids and proposals will be due to Clark/US on or before November 22, 2016

YES, we will bid.

NO, we are unable to bid.

We received your information and hope that you will join us in bidding this project. If you would like to become a subcontractor with Clark/US and receive future ITB's please go to this website and register a Subcontractor Qualification Application. The application will be used by Clark to aid in determining the qualifications of a subcontractor to perform the specific work for which it is being considered. www.clarkextranet.com/subform.
