Outreach Event for WSSC Piscataway WRRF Bio-Energy Project  
Monday, April 29th and Tuesday, April 30th, 2019

PC Construction will be hosting an informational meeting on the Bio-Energy Phase of the Washington Suburban Sanitary Commission (WSSC) Piscataway Water Resource Recovery Facility (WRRF) Bio-Energy Project. This phase of the project will bid in June with an expected construction start date of April 2020. Drop by Monday April 29th or Tuesday, April 30th to meet some members of the team and learn about the Bio-Energy phase of the project, bidding opportunities, bidding process, and schedule.

Option 1:  
Monday, April 29th, 10am-7pm  
Presentations at 10am, noon, 2pm, 4pm, and 6pm

Option 2:  
Tuesday, April 30th, 7am-noon  
Presentations at 7am, 9am, and 11am

Where: Doubletree By Hilton, Severn Room  
15101 Sweitzer Lane, Laurel MD 20707

RSVP: Pre-registration appreciated but not required.  
Please register online here  
Walk-in registration is available.

Questions: Questions pertaining to this event can be directed to Karyn Carstensen at 802.651.1233 or estimating@pcconstruction.com

The PDB team anticipates bidding the following packages for the Bio-Energy phase. Please note that packages are subject to change.

2.22 – Site Utilities  
2.24 – Demolition  
2.25 – Construction Fence  
2.28 – Earthwork  
2.30 – Erosion Control  
3.22 – Concrete  
3.24 – Precast Concrete  
3.25 – D110 Tanks  
3.26 – D115 Tanks  
5.22 – Metals/FRP  
7.22 – Roofing  
7.24 – Translucent Panels  
8.26 – Special Doors  
9.22 – Painting and Coatings  
9.26 – Architectural  
13.22 – Pre-Engineered Metal Structures  
13.23 – Pre-Engineered Cake Storage Canopy  
14.22 – Hoisting  
15.22 – Process Mechanical  
15.24 – Plumbing  
15.26 – HVAC  
15.30 – Fire Protection  
16.22 – Electrical  
17.22 – Instrumentation and Controls
Notice of Opportunity

Project Location: 11 Farmington Rd. W Accokeek, MD 20607

Delivery: Progressive Design-Build (PDB)

Design-Build Team: PC Construction, Stantec, Hazen & Sawyer

Project Description: The Progressive Design-Build Team (PDB) team of PC Construction, Stantec, and Hazen & Sawyer is pleased to have been selected to design and construct WSSC’s Water Resource Recovery Facility (WRRF) Bio-Energy Project in Prince George’s County, Maryland. The new Bio-Energy Project will accept biosolids from the Piscataway WRRF and four remote WRRFs, and will produce Class A biosolids, biogas and electricity.

This project will be completed over two phases (Early Work Package and Bio-Energy Package) for an estimated total value of $250 million.

- Early Work: The Early Work Package is expected to break ground in the spring of 2019. Contracts have been awarded for the early work phase.
- Bio-Energy: On behalf of the PDB team, PC Construction is currently soliciting interest for the Bio-Energy Phase. This phase of the project will bid in June of this year with an expected start date of April 2020. This project is expected to be operational by spring of 2024.

Participation requirements: This project has Washington Suburban Sanitary Commission (WSSC) requirements and minority participation requirements from the Maryland Water Quality and Drinking Water Revolving Loan Fund Program (MWQFA) from the U.S. Environmental Protection Agency (EPA).

Next steps: If your company would like more information about the Bio-Energy phase of this project, we encourage you to attend our Subcontractor Outreach event on April 29th or 30th, 2019.

Please register online here or contact Karyn Carstensen by email, estimating@pcconstruction.com, or by phone, 802.651.1233. Pre-registration is appreciated but not required.

If you are unable to attend either date and have project specific, scope related questions, please contact Cameron Hunt by email, chunt@pcconstruction.com, or by phone, 802.651.1389
