DC Water Enterprise Resource Planning (ERP) System Contractor Orientation

YOU'RE INVITED!

DC Water has selected Oracle Cloud as its new ERP Solution to replace its legacy Procurement System. Now, firms will interact with DC Water through one unified platform. Having one system will create a significant efficiency in soliciting goods and services, ordering, and paying vendors.

Benefits of Oracle Cloud ERP System

- Online bid submittals
- Real Time Reporting
- Expenditure Tracking
- Mobility: iOS and Android compatible

As part of the system roll-out, DC Water is hosting a series of orientations to explain and demonstrate the supplier portal features and walk through the following:

- Submitting and Viewing Invoices
- Tracking Payments
- Supplier Registration
- Viewing Solicitations
