

Global HVAC Expands its Operation and Named Best Minority-Owned Mechanical Contractor of the Year

Antonio Villanueva, Principal Global HVAC, LLC

At Md. Washington Minority Companies Association (MWMCA) we are extremely proud of the many minority and women business enterprises that associate with us as members as well as the prime trades and general contractors that seek our members for project inclusion. During our recent 15th Annual 2018 Spring Breakfast Meeting/Business Showcase Expo on May 11, 2018 at Martin's West, one of our members, "Global HVAC, LLC", headed by Antonio Villanueva, Principal, who earned the honor as "**Best Minority-Owned Mechanical Contractor of the Year**", delivered a very passionate speech. Not only did Mr. Villanueva discuss how his business has expanded to include new equity partners to strengthen his practice, but he also touched on faith, religion, family, honesty, and his love for America. In our opinion, "Global HVAC, LLC is an ideal model for minority and small businesses to emulate", said Wayne R. Frazier, Sr., president of MWMCA. Please take a few minutes to view his speech delivered at our recently held Spring Breakfast program. [Select here](#) to view video now!
