

Construction Management Building Blocks®

Register today!

We invite you to participate in our Construction Management Building Blocks™ Training Program, which celebrates diversity, enriches partnerships and strengthens communities.

The goal of our program is to provide training in fundamental areas of construction business management and provide an opportunity to network with other contractors, representatives from participating agencies and other local business organizations.

The course syllabus addresses topics that are traditionally challenging for contractors. The program format will include lecture, group discussions, and a roundtable discussion with proven business practices. Course materials will be presented by internal Skanska subject experts and community partners. Participants will receive certificates upon completion of the program.

There will be **no cost** to participants and **two** representatives are allowed for each company.

Classes include:

- Project Planning
- Accounting
- EHS
- Legal
- Field/Project Management
- Risk Management
- Technology
- Business Roundtable
