YES, we will bid.

NO, we are unable to bid.

We received your information from the SBA and hope that you will join us in bidding this project. If you would like to become a subcontractor with Clark Construction and receive future ITB's please go to this website and register a Subcontractor Qualification Application. The application will be used by Clark to aid in determining the qualifications of a subcontractor to perform the specific work for which it is being considered.

**BID INVITATION FOR CONSTRUCTION
OF**

JHH - MEYER BUILDING RENOVATION

**Your bid is due to us on or before DECEMBER 04TH, 2014
@ 2:00 PM**

Project Description: The Meyer building is a 32-year old, 12-story building constructed in the early 1980's located on the Johns Hopkins Hospital's East Baltimore Campus. The 12-stories include a basement (B) and sub-basement (SB) below grade, a penthouse (PH) mechanical space at the 9th floor, and elevator machine rooms at the 10th floor. The building consists of two (2) wings; the patient wing and the lab wing. The renovations will incorporate interior renovations to three (3) inpatient units on floors 7, 8, and 9 and associated support space; interior upgrades to the 1st floor public corridors; building infrastructure upgrades including majority of MEP systems serving the entire building both in the 9th floor penthouse, the SB mechanical/electrical (MEP) space and the MEP shafts; replacement of the concrete floor slab in a portion of the SB; construction of a new low voltage IT shaft on the east face of the building exterior; waterproofing of the Meyer Courtyard adjacent to the west side of the building; and modifications to the east face of the building along Wolfe Street at the 1st floor level. Floors 3 through 6 house active inpatient units and floors B through 6 house a number of active lab spaces. Floors SB through 8 also contain numerous active outpatient operations and physician offices. All areas noted as active will remain occupied throughout the renovation process and hospital functions on these floors must be maintained.

Megan Angelini - megan.angelini@clarkconstruction.com - 301-272-6850 - Final Cleaning, Pavers, Landscaping, Spray Fireproofing, Painting, Wire Mesh Partitions, Blinds and Shades
