

INVITATION TO BID

**General Information**

Company Name: AB&H Excavating, Inc

Bid Title: So MD Pre-Release Unit Dam Remediation

Bid Due Date: March 30, 2018

Bid Due Time: 4:00 PM

Project Description: The work consists of removing the earthen dam and replacing it with a concrete spillway and adding a temporary access road.  
The work includes but is not limited to the following:  
1. Installing, maintaining & removing temporary chain-link fence around the perimeter of the work area.  
2. Protection of existing structures & features from damage throughout the duration of the project.  
3. Obtaining & contracting private utility locator to identify the locations of the utility systems within the project limits prior to construction.  
4. Removal & disposal of existing pipes & risers  
5. Construction of new concrete spillway as shown in S-01. Concrete construction includes steel reinforcement, control joints, expansion joints, etc  
6. Construction of new temporary access road to access the concrete spillway  
7. Site clean-up at the end of the project & removal of all demolished materials
