

Concourse A/B Connector & Baggage Handling System at BWI Subcontractor Outreach Event

Join us! The Clark Team is excited to meet you.

If you are interested in potential opportunities on the Concourse A/B Connector & Baggage Handling System at BWI Project, we want to meet you.

WHEN: Wednesday, May 18th, 2022

WHERE: Maritime Conference Center
Classroom #2
692 Maritime Blvd
Linthicum Heights, MD 21090

TIME: 10:00am

PROJECT OVERVIEW

The Maryland Department of Transportation's Maryland Aviation Administration (MAA) is expanding the Terminal A/B facility at the Baltimore/Washington International Thurgood Marshall Airport (BWI Marshall) to accommodate a new Baggage Handling System (BHS) and provide a pedestrian connector between Concourses A and B. Identified as the Concourse A/B Connector and Baggage Handling System (A/B Connector) project, the new facility will increase the capacity of the existing inbound and outbound baggage systems, provide a more direct airside connection between Concourses A and B, enhance apron level facilities, add passenger amenities such as expanded concession opportunities, as well as provide new restrooms.

MDOT DBE Certification Required (Project has an 18% MDOT DBE participation)
