Clark Water, LLC is seeking interested DBEs/WBEs trade partners for the DC Water Miscellaneous Facilities Upgrade Phase 9 CMAR Project.

**Project Description:**

The project includes specific construction task orders and assignments for the DC Water Miscellaneous Facilities Upgrade Phase 9 CMAR MSA Project. This will include backlog and planned projects that will be delivered under the CMAR MSA contracts and are located throughout DC Water's water and sewer service areas.

The scope of work for each task order will vary but the anticipated overall work is expected to involve the following disciplines: civil, structural, mechanical, plumbing, HVAC, electrical and instrumentation and controls.

**Trade Opportunities:**

Clark is currently submitting on the request for qualifications and is seeking firms interested in providing preconstruction services for the work.
