

GENERAL COMPANY INFORMATION

O: 410-418-4880

F: 410-418-4919

BAY ASSOCIATES ENVIRONMENTAL, INC. (BAE) is an environmental contractor specializing in projects related to hazardous and nonhazardous waste disposal, remediation, construction and management. The company is located in Baltimore, Maryland and was formed in 1992. Services are provided nationally with a greater concentration in the mid-Atlantic region. Our team consists of experienced environmental professionals with backgrounds in the hazardous waste industry, environmental construction and remediation. These services include success both on government and commercial projects.

Bay Associates Environmental, Inc. is a small business as defined by the federal government. The company is a 100% woman-owned business. Its minority certifications include Maryland Department of Transportation (MDOT), Metropolitan Washington Airports Authority (MWAA) and Baltimore City (WBE).

Although small, part of our success is our ability to properly manage large and small projects, develop long-term working relationships, and properly assess our client's needs - making them look good. It is our goal to work with our clients *as partners* in effectively handling all aspects of environmental waste including cost, environmental protection, and safety.

Our services are comprehensive: From initial site characterization, to determination of proper disposal or remediation method, to final disposal and clean-up documentation. We ensure our client feels confident their wastes are handled safely and disposed of properly and economically. Bay

Associates Environmental, Inc. determines the best disposal management plan for our clients for their particular wastes.
