Past Performance

Scope of work – Data Warehouse

Client – Consumer Product Group Performance Period: 2008-Present

Overview: Our team of certified SAP consultants architected, designed and implemented SAP BI solution to provide budgeting, forecasting and consolidation solution. This solution saved our client \$1.4 million per year in support cost.

Scope of work – Project Managers and Healthcare Subject Matter Experts. (SME)

Client – Government Agency Performance Period – 2009 - Present

Overview: Our Healthcare SME's worked with Centers for Medicare & Medicaid Services (CMS) to analyze the policies and rules published, to determine the scope of the business requirements. Our consultants lead brainstorming sessions and JADs with the stakeholders to develop the business and functional requirements. Our SME's worked with developers to ensure correct understanding of the requirements.

Scope of work – Web and Internet Technologies.

Client – Utilities Performance Period: 2009 to Present

Overview: Our Certified SharePoint Application developer automated user payments so that customer care team can pull records while interacting with customers. Our team integrated third party/in-house applications into one central location. Our team implemented user friendly mobile application for customers. We implemented retention policy for utility company as per State Regulations.

Scope of work - ETL Technologies.

Client – Healthcare Period: 2011 to Present.

Overview: Our consultants built a gateway using TIBCO to interfaces with adjudication engines. The input and the output for the application were in X12 formats. 837(Claims) received from different trading partners were sent to different adjudication platforms. 835(Remittance) was received from adjudications and sent to respective trading partners. The Gateway receives eligibility 270 and claim status 276 from trading partners and sends them to eligibility 271 and claim status 276 to respective trading partners.

Scope of work – Web and Internet technologies.

Client - Banking and Finance

Performance Period -2008 - Present

Overview: Our consultants with web and internet skills built and enhanced client web sites and web applications such that they facilitate ease of use and provide all appropriate information. Our developers use the latest Web technologies like Java and .Net.

Scope of work – Business Intelligence.

Client – Nuclear Energy

Performance Period -2012 - Present

Overview: Our certified SAP BPC consultants evaluated and migrated an existing solution from 3rd party location to in-house, to save cost. We saved annually \$450k in maintenance costs. Our BPC experts built dashboards and scorecards used in boardroom meetings with real time data.

Scope of work – ERP Implementation

Client – Energy Company Performance Period: 2005 to 2008

Overview: Our certified ERP consultants implemented and supported Oracle ERP solutions. The team implemented Oracle E-Business modules: Financials, Order to Cash, Order Management, Procurement, Project Portfolio Management, Warehouse Management Systems, Inventory and Enterprise Asset Management. Also this solution was Sarbanes-Oxley Compliant.
